Review of Past Minutes

Presenter: Keila Ellingson

Discussion Review of Past Minutes from September 21 by Keila Ellingson. Minutes motioned, seconded and passed by the SCC. Minutes have been approved, and will be published on the website and in print form in the front of the school for community to see.

Discussion Wendy provided a review of the MMS budget and how the budget is currently being spent at Midvale Middle School. Everything that the budget has been spent thus far is going to pay individuals that work directly with students. The school has an open position for a student mentor, this position is in the budget as a 20 hour a week positions. Please recruit anyone who you feel would be a good fit, and that can work daytime school hours. The budget is also going to pay teachers to develop literacy curriculum for our students.

SCC has no questions about the budget thus far.

Discussion During the previous SCC meeting the attendees were given a self study survey on the on the framework of MYP. The results are as follows.

Comprehensive Guidance Update

Presenter: Melissa Baker

Discussion Corby Eason, MMS school counselor received a human rights award. This information is on the website and will be featured in the newsletter. The 8th graders will be taking a field trip to UVU this month. This year the students will be visiting UVU, BYU, and possibly the U or other colleges this year. The school counselors deliver in the classroom Comprehensive Guidance Lessons on a monthly basis.

This month:

6th grade: is focusing on developing social skills, with career development activities

7th grade: is focusing on college and career readiness and social skills

8th grade: is focusing on college and career readiness

A multi cultural field trip that was put on by the state was taken this month. The governor spoke during this fieldtrip. MMS took 40 8th graders. This is an annual field trip that MMS participates in.

Questions

Is anyone seeing a need for counselors to focus on? Melissa clarified that all classes receive these lessons, the school counselors see all students and also do responsive services.

Ideas for lessons by counselors that focus on:

-How young ladies and men should be acting, and what messages are we sending when we speak and our body language.

-The importance for kids to understand how adults should and should not talk to young people, maybe a lesson on this as well.

Progress Monitoring of CSIP Goals with Data

Presenter: Wendy Dau

Discussion Wendy presented an update to our CSIP goals.

Literacy: We now have all baseline data. Placements based on student scores have been made. All of this testing will be done in December and then again in April. Our goal is to see if we are making growth. For our Salta kids we need to make sure their reading level is maintained and they score a 3 or 4 on Sage. These students do not receive reading intervention, they are receiving enrichment.

Stem Goals: We have a new measure, the math inventory (SMI). From this data students who were on level with reading they have been placed in a math lab.

PBIS Goal: Next month we will show the office discipline referral data. We are using behavioral contracts and student mentors to get students back into class with a reflection.

Student survey of school climate: BLT will look at data in next BLT meeting. The lowest two scores we had on the survey were how students treat each other. The BLT will focus on this data and how to correct it. We do have problems on the busses, we need to talk with students about behavior, even if we are not being supervised. We want the students to score at least a 16 or higher, it is out of 32, on the make a difference project.

MMS School Grade: C

MMS has grown over 10 points in Language Arts. Below proficient students grew more than 10 points in Language Arts. MSS is looking at ways to show growth in the maths and science.

MGP from Sage Testing

All Students Growth:50 is what they expect a year's growth to be.

Language Arts: 42 in 2015, 57 in 2016

Below Proficient Growth:37 in 2015, 51.5 in 2016

The goal is to move school wide in math and science

Questions about the data? None

Bus Efficiency Study

Presenter: Wendy Dau

Discussion Changing the bussing would have pushed MMS start time 15 or 20 minutes later, We do not know if it is slated for the Oct 15th board meeting, due to the unpopularity of the effects it would have on high schools starting earlier and elementary schools starting later.

Update on Middle School Schedule for 2017-2018

Presenter: Wendy Dau

Discussion A proposed change to the middle school schedule arose due to the district being out of compliance with CTE and PE state requirements. State of Utah requires CTE to be everyday, this affects all middle schools in the district. On Nov 18th MMS will be going to the board with a new middle school schedule, again due to the CTE requirement increase and PE and Health requirement increase. MMS has it narrowed down to two possible schedules for the 2017-2018 school year.

1. 10 period schedule with 5 periods each day. Core classes each day. On B days the students would go to a 35 minute skinny period. Increases class sizes, but allows for full year electives. Reduces instructional time in ELD.
2. 7 period schedule A/B day. Full year band and full year world language. The now have 14 slots for classes. All core classes, ELD, and CTE everyday. The class periods would be 50 minutes, with 7 transition times. We would ½ PE teacher and may have to eliminate a language program

On Nov 10th MMS will host a parent night, and then hold the SCC meeting thus allowing SCC to vote on the schedules after the parent night information night. SCC will be held at 7:30 on Nov. 10th. Board meeting is on Nov. 18th. PTSA will be invited as well.
